SUMMARY

Dedicated and skilled Data Engineer with 3+ years of experience, specializing in ETL processes and database development. Possesses a strong foundation in PostgreSQL, Talend, and Tableau, contributing to successful data integration and visualization projects. Proven ability to collaborate with cross-functional teams and deliver high-quality solutions in fast-paced environments.

EXPERIENCE

IT Analyst

Tata Consultancy Services

⌚ 08/2024 - Present ⚙ Noida, India

- Worked with clients to identify their reporting and analysis needs and built customized BI solutions using **Talend ETL**, SQL, and **Tableau** Dashboards.
- Implemented new Apache Airflow DAGs to streamline and automate ETL processes

Systems Engineer

Tata Consultancy Services

⌚ 03/2023 - 08/2024 ⚙ Noida, India

- Developed new inventory setup reports based on the updated Oracle ERP system
- Have created new functionality to develop and design Talend jobs and Tableau Dashboards as per the business requirement
- Developed **ETL processes** using Talend to extract, transform, and load data from various sources into target databases
- Successfully migrated and loaded data into **PostgreSQL** tables, achieving seamless integration and enabling efficient **data analysis** and reporting.
- Utilized advanced Tableau features to create comprehensive reports including cross-tabs, Gantt charts, bar graphs, and line graphs
- Conducted code reviews and mentored junior developers, fostering a culture of continuous learning and improvement

Assistant System Engineer

Tata Consultancy Services

⌚ 03/2021 - 03/2023 ⚙ Noida

- Cloned and modified existing Tableau reports to accommodate Oracle ERP changes
- Utilized **Joins** and Sub-Queries to simplify complex queries involving multiple tables
- Makes recommendations towards the development of new code or reuse of existing codes
- Collaborated with cross-functional teams to ensure a smooth transition
- Successfully migrated updated reports to the production environment
- Provided real-time analysis and swift resolution of critical issues during finance closing periods, addressing Tableau report discrepancies and Talend job failures
- Managed the full lifecycle of dashboard development from requirement gathering to production deployment
